RE: Proposed changes to Kurwongbah Electorate boundaries

Dear Commissioner,

I write as a local concerned about the changes proposed to Kurwongbah electorate boundaries – specifically those impacting Narangba which I have been a community member for some 27 years.

We have a cohesive, strong community here in Narangba now with shared interests in local sports, schools, service and small business hubs. The changes proposed for our suburb are confusing and I want to register my objection to dividing our Narangba community.

I believe that there could be alternative changes to the boundary lines and still maintain the required electoral numbers permitted for our electorate.

Some suggestions are:

Aligning the electorate boundary with the railway line crossing at the Station-Rowley-Henderson Road intersection in Burpengary; and

Transferring the bits of Burpengary north of Rowley and Station Roads to the Morayfield electorate.

Even shifting the boundary line to the Burpengary creek in Narangba would keep our community together.

Thankyou,

Kind regards,

Leisa Schiavi
