Submission:

****Boundary Re-alignment proposal****

Looking at the maps, the suburb of Bethania is proposed to be included within the new Woodridge electorate.

I feel that those making decisions in this matter have not correctly identified that the Logan River effectively cuts-off the suburb of Bethania from proposed Woodridge electorate. To get to Bethania, you would literally need to leave the electorate!! To get from Bethania to Tanah Merah or Loganholme (within the proposed Woodridge electorate) one would need to drive through another electorate!!! This is ludicrous and will only result in our elected official not visiting the suburb. Our needs and circumstances and situation is very different to the rest of the Woodridge electorate.

As a resolution, I propose that the Logan River continues to be the boundary and Bethania is included in Beenleigh electorate.
