**Submission Topic:** Electorate Boundaries  
**Electoral District:** Warrego

**Submission:**

The separation of Tambo from the Gregory electorate into the Warrego electorate removes it from its communities of interest and is widely opposed by the communities of Tambo and Blackall.

Tambo sits within the LGA Blackall-Tambo Regional Council. The Council has worked tirelessly to cohesively bring these towns together to form a strong, united front.

For all of its service delivery, Tambo sits within the Central West district, not the South West. It would be problematic for the town to be placed within an electorate that is removed from essential services, direct interests, and towns and regions Tambo and its locals have a deep connection to.

Given the number of voters are nominal currently, without great growth forecast, I strongly provide my support to the many Central Western Queenslanders who compel the Commission to keep Tambo in the state electorate of Gregory.
