Organisation Name: Narangba Valley Tavern
Submission Topic: Electorate Boundaries
Electoral District: Kurwongbah

Submission:

As a business that has been tied to the Narangba area for over 20 years, this redistribution would move our organisation outside of the boundary that we have had supported and been supported by in the State Government.

It also removes a number of schools & sporting clubs that have been supported effectively by the local member for a long time.

The local members office will also required to be removed which puts an unnecessary burden on the tax payers.

Finally with the growth of housing north of this boundary I do not believe such a change that splits the community falls under fair & equitable redistribution by adding more voters to the Morayfield district.
