Submission Topic: Electorate Boundaries
Electoral District: Hill
Related Submissions: Removing our seat

Submission:

Having read numerous submissions about the removal of our seat of Hill to once again prop up the south east corner is absolutely disgusting, we seem to meet all the requirements to hold the seat percentage wise, every submission I have read supports retention, you are supposed to be independent and not influenced by our political masters and this being so there is absolutely no justification for the seats removal, we need to remain a united community not one divided by lines on a map, lets just do the job you were appointed to do and not cause division in already the neglected north, I appreciate the opportunity to make this submission
