To whom it may concern,

I've lived in Hervey Bay on and off for the better part of two decades. I find it extremely appalling that the boundary would be rewritten to not include the Hervey Bay Hospital in the Hervey Bay electorate, and also that Eli Waters would be designated to Maryborough.

I understand that you want to gerrymander the borders to properly get your team elected, but I find it incredulous that you would do so to the detriment of actual people.

I assume that if this goes ahead as part of the plan, that will mean that you'll be funding a new hospital for the Hervey Bay Electorate as there will be two in Maryborough, and none in Hervey Bay?

I didn't think so. Fix your mistake.

Maurice.
