Hello My name is Zac and I live in the Electoral district of Gladstone. After reading the proposed changes to boundaries i have many concerns. Firstly I find it extremely unnecessary to change the names of existing Electoral districts as this will create confusion and will cost taxpayers as all signage for members will need to be updated. Secondly abolishing two districts especially one in North Queensland is extremely undemocratic, people in North Queensland are some of the most understood and voiceless people in this state and one of the only ways they can voice their opinions is through the Queensland parliament. By getting rid of this district it is effectively stripping away there voice and splitting the voters into districts that do not represent their values. The state of Queensland should represent top to bottom of the state not just South East Queensland, so im calling on the QRC to seriously consider not making this much of a drastic change to our Electoral districts and boundaries, we are a democracy and need to keep representation to the people as this is who it will effect the most and who is it should be in the best interests of.

Thank you, yours sincerely
Zachary Wales
