Electoral District: Burnett; Callide

Submission:

I'd like to state that I oppose the proposed change to include Agnes Water/1770 in the Callide region from the Burnett. Callide is quite a geographically large area and my concern is that the coastal towns will not get an accurate (or enough) consultations and visits from the members. My concern is also what focus that a member elected will have with considerable amount of work dealing with the large differences between the wants and needs of coastal living and those of the people living inland. Currently Burnett is being managed fantastically I think in part due to the similarities through that region
Regards.
Daniel
