Submission Topic: Electorate Boundaries
Electoral District: All

Submission:

It is blatantly obvious to anybody paying attention that this submission is a blatant and deeply troubling attempt at gerrymandering under the guise of "reshaping electorates for sustainability." As a Queensland citizen I find the appointment of John Sosso as the electoral commissioner, without any merit process, to be extremely concerning given his history of removing the need for partisan support for appointment of the state's electoral commission, and his career being almost entirely focused on doing everything he can to get to this position to blindly approve the LNP's submission with no scrutiny or genuine review. I would urge the commission to review the Fitzgerald inquiry and act in the long term interest of the Queensland public without partisan bias in mind.
