**Submission:**

In spite of the rationale provided for the proposed review of state electoral boundaries I oppose the proposed movement of the electoral boundary which will split the suburb of Narangba Valley for the following reasons:

- Schools and sports clubs need to be kept in the same Narangba electorate to facilitate a cohesive approach to decision making, fund raising etc
- The Kurwongbah electorate office would be moved from the electorate which would disadvantage citizens who are currently within walking distance of the office
- Moving this office would incur unnecessary costs to the taxpayers
