Submission:

I currently reside in the Gaven electorate but have just read from the proposal that I would now reside in Mudgeeraba. Looking further, it appears that the rewrite is nothing more than Gerrymandering undertaken to shift the LNP members to cover more of the affluent areas and brake up the votes of the Labor party that managed to get a presence on the Coast.

Whilst not a long an articulated submission, I can only call it out for what it is. It's a sad day when we allow this sort of manipulation.
