Submission Topic: Electorate Names
Electoral District: All

Submission:

It is outright appalling to even suggest to remove the names belonging to the First Nations from the electorate names for one simple reason-The First Nations people were the First People to have named the place and lived there.

Hence, the very idea to remove the First Nations names in this respect has got to be due to the white Australians interference who are naturally of low intellect. In fact, the low-intellect and racist colonial names are the ones that should be removed and replaced with First Nations names. The First Nations values and history must never be allowed to be systematically erased.
