Submission Topic: Electorate Boundaries
Electoral District: Beenleigh (formerly Macalister)

Submission:

Redistribution of Macalister electorate is unwarranted and does not make sense. The proposed boundaries will cross LGA boundaries which are clear borders between not only the councils but also the needs and wants of the residents either side. Ormeau hills residents principal community is towards coomera and in the Gold Coast region, they do not share needs and wants with residents of Beenleigh and Eagleby. This redistribution will result in the MP having to represent a vastly different community with separate centres of community and community services. This redistribution should not occur.
