**Submission Topic:** Electorate Boundaries  
**Electoral District:** Burnett; Callide

**Submission:**

The proposition to remove the coastal communities of Turkey Beach, Bororen, Miriam Vale, Agnes Water/1770, Baffle Creek, Lowmead and Rosedale from the current electorate of Burnett and put them into Callide is devoid of common sense and bordering on stupidity. These communities rely on tourism and recreational fishing ( a huge industry ) and have very little in common with inland Queensland. The vast majority of the residents are vehemently opposed to any form of renewable energy projects as they wish to preserve the pristine environment of the Baffle Creek Catchment area for fishing and mainly cattle grazing and certainly do not want industrial estates of possible chemical contamination. The current member for Callide certainly dose not reflect this view, so he will not get any votes in this area.
