Ross Humphreys

My opposition and disdain to the abolishment of the Hill electorate that is connected through common needs, geography & affective representation.

Your proposed changes offer fractured representation of differing geographical and community needs ,a thinly spread distant representative. And more importantly one less representative for North Queensland.

The electorate could tolerate minor boundary changes but sees no need for major disruption based on quota propaganda.

As a resident of the Malanda community the lose of local representation should not be compromised by unexceptable representation and I am requesting that the Queensland Redistribution Commission reject the proposal to abolish the electorate of Hill.

Yours Sincerely

Ross Humphreys
