Submission:

I wholly support submissions which suggest the Redland City Council suburb of Sheldon should not be part of the Springwood electorate. As the local councillor for this area, numerous residents have expressed concerns to me about being disconnected from Springwood both geographically and socially. Sheldon is part of Redland City and shares services with this locality, not with Logan City which houses a large majority of the Springwood electorate. Sheldon should be absorbed into one of the Redland City based electorates, most reasonably the electorate of Capalaba.
