**Electoral District:** All; Barron River

**Submission:**

My family and I strongly support the retention of all indigenous place names. We also support reverting to the earlier traditional place names.

Case in point would be Earl Hill .An important geographic location at Trinity Beach, north of Cairns.

In our view this prominent landmark would be better named as it was known for thousands of years by its traditional custodians, of which there are many in the region.

Thankyou, Andrew Lucas.
