Submission:

I have attached a detailed proposal for majority of electorates with detailed SA1 data to support my proposal.

QLD FEDERAL ELECTORATE REDISTRIBUTION

BY LUKE DIXON

RATIONALE

The new boundaries was designed to create minimal disruption while joining full LGA's into as many electorates as possible.

All numbers are based on the estimated figures for **the year 2030**. This is to ensure that the electorate numbers are as equitable as possible for the **two Queensland state elections this redistribution will cover**.

NOTE

Unfortunately due to time constraints I was unable to complete the detailed maps, estimated current electorate counts or transfer all data into the appropriate spots. I have attempted to note here where summaries, data or completed numbers were incomplete.

THE GRID

The numbers below mean the following, from left to right;

- 1- The SA1 number
- 2- The 2032 estimated SA1 projection of voters.
- 3- The 2025 estimated current voters per SA1 area.
- 4- In bold, the projected 2030 electors per SA1 number.

003: 187 (171) **182**

OTHER DETAILS

+44 RUNBANK

(The proposed electorate name and how many to the nearest thousand the electorate is projected to be over or under allotted. The figures relate to projected figures. All electorates fit comfortably within the current 10% requirement. In the case of a new seat, an allotment of 44k voters is estimated.)

(23 from Stretton, 21 from Toohey)

(The target number of voters to be redistributed to or from each electorate.

FROM TOOHEY (21740) Where the estimated number of voters are redistributed to and the amount of voters redistributed.

(1130...) (The first four digits of the SA1 number)

604(The final three digits of the SA1 number): 1819 (The number of voters being distributed from the SA1 area.)

(/)920: 3 (The (/) denotes that only part of the SA1 area is being redistributed.)

OVERALL SUMMATION

(The overall summation should be considered as my primary recommendations. SA1 figures below are estimates that aim to support these recommendations.)
