Submission:

New boundaries are being proposed for the Pine Rivers electorate. The incumbent MP is Nikki Boyd is against this prossk as has set up a petition for people to object.

I questiond her on her Facebook page as to what her reasons were for objecting to the proposed boundary changes and suggested it may be because she would be losing much of her voter base in view of the fact the suburbs being lost were of a low socio economic status who normally vote Labor. Boyd is of course a Labor MP.

Instead of answering me she has blocked me from her Facebook page. Speaking as one if her constituents, this is not the action of a responsible MP and as such she should be reprimanded.

If my assessment of the impact of the proposed boundary changes is correct, she will probably lose her seat at the next state election which will be a good thing. We can do without people like Nikki Boyd sitting in the Queensland Parliament.
