Submission Topic: Electorate Boundaries
Electoral District: Aspley

Submission:

I believe the splitting of the suburb Geebung, to two electorates would be detrimental as key community hubs such as schools, train and shops would be in another electorate to where the majority of community members live. It would mean local issues being determined by two members and potentially two political parties. If concerns are raised would the state member listen as potentially the person who raises the issue wouldn't reside in that electorate.
