Submission Topic: Electorate Boundaries
Electoral District: Hill
Related Submissions: Boundary change

Submission:

I'm most concerned with the proposed absorption of the seat of Hill electorate. Its a large area & blending with other electoral areas will seriously impact our representation in parliament. This area struggles to get money for roads ,schools, medical services & other necessities that more heavily populated areas take for granted. Combining with other electorate will rob of us of a voice. More people are moving to all the areas in this electorate . I feel we'll be missing out on fair representation.
