Subject: **Proposal to abolish the seat of Hill**

We are opposed to the proposal to abolish the seat of Hill.

We are happy with our representation now. The town of Innisfail has an influx of young families who are investing in the region. This means the birth rate will increase and families reunions and therefore the number of voters.

We want fair representation as our member is very active and the seat covers a large area and diverse communities. Our member understand his seat.

The proposed redistribution will have towns competing against each other for representation.

The north of Qld needs more voice in Parliament it is not fair to reduce our voice when we are as a region are struggling to be heard.

The cities have a huge population but also a huge share of the voice and share of resources and this does not help rural communities.

We still struggle for services, roads and medical care due to the long distances traveled.

We need more voices in Parliament not less and we want our member competing for his seat not trying to find another seat. That is in Australian
