Submission Topic: Electorate Boundaries
Electoral District: Aspley

Submission:

I disagree with splitting a suburb between 2 electorates. It is confusing for residents and for support mechanisms. Schools, sporting clubs and community organisations rely upon our elected representatives for a number of things. It then becomes confusing and a waste of time and effort to be told you have to talk to the other person because you have moved electorates. I won't be changing electorates but I feel for the organisations that will have to navigate this.
