**Name:** Luke Petersen  
**Submission Topic:** Electorate Boundaries  
**Electoral District:** All  
**Related Submissions:** Redistribution and reducing the Regional seats in preference for South East Queensland.

**Submission:**

South East Queensland is over represented in the QLD parliament, and consolidating the seats within a small part of the state will not help the productivity or improvement of the states bottom line. Need to redistribute based more on land area and economic input then just based on putting people in one small area that doesn't contribute as much economically to the state per person, compared to the regional areas. These areas keep being overlooked and moved around to ensure major parties can consolidate there power within the major cities.
