I have only just learned that my Electorate of HILL is being considered to be no more. MP Knuth is a wonderful champion for our region. If anything, it is the State Government that should be abolished altogether, and we have Regional and Local council electorates representing us. They are proven to at least support their people. Anyway, I have no trust in the Government process anymore. The world has gone mad. We are over governed, over taxed, and what we say does not seem to matter in the least. Here is my attempt to please reconsider abolishing HILL electorate please.
