Submission:

With regards to the electorate of Everton, I would like to support submissions that combine the suburb of Ferny Grove suburb and the Hills Districts but with a northern boundary that ends on the northern side of Bunyaville conservation park and is also contained by the Samford Conservation park. The Bunyaville conservation park separates 2 different communities of interest in the current electorate of Everton- really the conservation park is a hard boundary in this case and clearly the communities to the north and south of this feature are separated geographically. The communities of interest, in my view, are Everton Park west of Trout's Road through to D'Aguilar Ranges including Ferny grove and Upper Kedron then South to the hard boundary of Kedron Brook. This is the electoral boundary that I support. Thank you for your consideration.

I support using/ retaining indigenous/ First Nations names/ words for Electoral Division names wherever possible and do not support removals of these names unless agreed to by local First Nations Traditional Custodians and elders. Thank you for your consideration.
