It seems ridiculous to me that Sheldon is a suburb wholly within the Redlands LGA yet is included within the electorate of Springwood.

I believe the elected representative is Mick de Brenni who seems to be invisible. When we have received updates/flyers, which is rare, on what is happening in the electorate there has been absolutely nothing to do with Sheldon.

Most issues within Sheldon are dealt with by the local council.

I believe the 1762 residents of Sheldon (2021 Census) would all prefer to be part of the Capalaba electorate.
