**Related Submissions:** Leave the boundaries the way they are, don't change just to suit any political parties whoever is in power at the time.

**Submission:**

Leave the boundaries the way they are, don't change just to suit any political parties whoever is in power at the time.

Most of the residents in this electorate have resided in this area for many years and cannot understand why should governments waste money on things like this when there are more important things that require the money being allocated to benefit the electorate in general.

Why waste money on changing the boundaries to suit certain parties when the boundaries have been the same for many years, and everybody knows the electorate that they are currently enrolled in.
