Name: Duane Bakker
Submission Topic: Electorate Boundaries
Electoral District: Hill
Related Submissions: Relates to suggestion of removing electorate district of Hill so SEQ can even more seats and influence

Submission:

I cannot understand the purpose of this submission. Is it to shore up more seats for the current govt by removing an independent seat and giving the city based parties more power? Or is it to simply to find more ways to provide more power and money for SEQ at the expense of regional QLD. At the end of the day a city based organization is looking to provide more for the city at the expense of regional Qld. One only has to look at the poor standard of govt infrastructure in regional Qld in comparison to SEQ to see that we are constantly treated as 2nd class by our govt and respective departments. Removing a SEQ seat to benefit regional QLD would never be considered. Disappointing submission from our new govt who I thought cared for regional queenslanders.
