Submission Topic: Electorate Boundaries
Electoral District: Hill
Related Submissions: Redistribution

Submission:

Hill is a large area of rural Queensland, we are isolated from most services and restricted from contacting help or advice from our local member(s). Changing our boundaries further restricts us from this contact and we have little in common with areas associated with this redistribution.

Hill has been well represented by Shane Knuth, he is a phone call away, visits the town from time to time and is keen to act on our behalf on issues related to our town and local area.

Closing this avenue of referral is detrimental to our community and should be abandoned by the redistribution committee. We choose to live here, it is a vibrant community and we wish it to remain that way. By casting us out into an area which we have little in common with is detrimental to everything we enjoy at present.

Shane Knuth is a great local member, he works hard for all communities in his electorate and we don't want to lose him because of a committee based in suburbia, who have nothing in common with rural communities.

Please consider our wants and needs in this matter and do not continue with this change in our electorate of Hill.
