Submission:

Do not replace Indigenous names of electorates. this would be yet another way of making this part of the qld population invisible. i am proud to live in an electorate with an Indigenous name. re maiwar: retain the river as a hard boundary. to do otherwise would be confusing because communities either side of the river are very different from each other. 3rdly fig tree pocket is an odd shaped add-on in maiwar and may connect better with moggill.
