Submission:

Winton Shire Council supports the position with Submission S-00093 and is extremely concerned that a redistribution of State electoral boundaries will severely impact the representation that communities in Central Western Queensland in the Gregory electorate currently have. Remote regions are already at a disadvantage when seeking to have our voices heard and a dilution of representation through boundary redistribution will further exacerbate issues. Regional and remote communities in Queensland need equitable and accessible representation and we thank the Commission for providing this opportunity to provide input.
