Submission:

The people of our Atherton tablelands highly disagree with the new proposed adjustments to our district, instead of removing the seat of hill, we need to adjust the boundaries so from mareeba south we become the tableland region again, mareeba is not represented in the cook seat, your boundaries have been incorrectly set up to suit voting to win seats, not to give the people of mareeba a fair say or representation. Please consider the adjustment to these boundaries, and definitely don't remove one of seats our neighbours have of hill. Adjusting these seats so we don't have fair representation is just ethically unjustified. More seats in the city areas do not help regional and remote areas have a fair say. If you had any decency, you would run a pole that all people in our regions could comment on and give us fair representation. Im more than happy to come and set up a meeting with whoever, and calmly discuss these matters.
Matthew.
